IIB and Bulgarian Development Bank finance another project in Bulgaria with EUR 15 million

September 30, 2015

The **International Investment Bank (IIB)** and the **Bulgarian Development Bank (BDB)** once again come together to support the Bulgarian economy, providing a 3-year EUR 15 million credit line to **PRISTA OIL** — a leading Bulgarian company producing motor and industrial oils, greases and specialty fluids with an international presence. IIB's part of the syndication represents EUR 10 million.

The loan will be utilised to finance both PRISTA OIL's main activities and export contracts. The company applies modern and innovative technologies and its production facilities are located in several countries, including another IIB member state — Hungary.

This is already IIB's third loan in Bulgaria this year, with total investments in the country reaching EUR 32 million in the last nine months only. The facility also reflects the effective implementation of the Memorandum of Cooperation, signed between the IIB and the BDB in March 2015 — all IIB's projects in Bulgaria since then have been co-financed with the country's national development bank. The BDB therefore represents one of the major partners for the IIB in the Republic of Bulgaria.

Vladimir Liventsev, Deputy Chairman of the IIB, commented: *«We have been enjoying a highly fruitful relationship with the Bulgarian Development Bank — in fact, this relationship has made Bulgaria one of the top destinations for our investments and provides a benchmark for our cooperation with national development banks of other IIB member states. Furthermore, we are also glad to support such an innovative and leading Bulgarian company, as PRISTA OIL.»*

Since its relaunch in late 2012, the IIB approved more than EUR 100 million of investments in Bulgaria, IIB's second largest shareholder and the largest among EU member states.
