

IIB for the first time advises a documentary letter of credit in order to facilitate the import of Russian products to Vietnam

September 20, 2018

International Investment Bank (IIB) for the first time provided support to a Vietnamese importer as part of the Trade Finance Support Programme (TFSP) by advising a letter of credit issued by Vietnam Joint Stock Commercial Bank for Industry and Trade (VietinBank) to the exporter's bank, one of the Top Five Russian banks in terms of assets.

As an intermediary bank that maintains partnership relations with a large number of financial institutions in its member states and third countries, IIB actively promotes the structuring of foreign trade transactions, including the use of its RMA network (Relationship Management Application, a mechanism for granting mutual authorizations for the exchange of authenticated messages within the SWIFT system) for the prompt and reliable transfer of financial information between parties to foreign trade operations.

The letter of credit advised by IIB was issued by the Vietnamese bank on behalf of its customer, who engages in the processing and canning of food products, for the purpose of payments for the supply of goods in favor of a major Russian supplier enterprise.

TFSP is an effective tool for supporting mutual trade of IIB member states between themselves and with third countries. For more information about the Programme, please follow the link: <https://iib.int/ru/products/tfsp>.
