

IIB signs a syndicated loan agreement on financing the Sofia Urban Mobility Centre

July 28, 2015

The International Investment Bank took part in syndicated lending to the Sofia Urban Mobility Centre (SUMC) in Bulgaria — a subsidiary of the Sofia Municipality, responsible for the organisation of public transport, with the total sum of the credit line corresponding to approximately EUR 41.5 million.

The agreement was signed by the IIB, the Bulgarian Development Bank — the organiser of the syndication — and the International Asset Bank. IIB's share in the credit line represents EUR 15 million. The loan facility will be used for purchasing new transport vehicles (trolley buses and subway cars) from the Czech Republic and Russia, two other IIB member states.

This syndication has been arranged following a Memorandum of Cooperation signed between the IIB and the BDB earlier this year in March with the aim of co-financing Bulgarian businesses, and it is a testimony to the strategic partnerships the IIB maintains with the development banks of its member states and with the BDB in particular.

IIB's participation in the credit line fully corresponds with its mission, and, in addition to fostering trade between the Bank's members, it is significant in terms of its social impact, with the IIB financing public transport needs of its second largest shareholder. With this new loan, IIB's ongoing commitments in Bulgaria reach almost EUR 50 million.
