

IIB supports Czech exports under its first trade finance deal with Belinvestbank

August 12, 2015

As part of its continuing support for trade finance operations, on August 12, 2015 **the International Investment Bank** issued its first TF deal by the order of **JSC Belinvestbank** in favour of a client of **Československá obchodní banka, a.s.**, supporting export from the Czech Republic to the Republic of Belarus of semi-trailer tanks for liquefied petroleum gas transport by one of the biggest Czech producers of gas equipment, **Východočeské plynárenské strojírny, a.s.**

The IIB continues to develop its trade finance operations in line with IIB Council's decision in November 2014. The Bank aims to support the economies of its member states based on their needs, and support of exports through this financial product has significant potential especially in relation to the Czech market.
