

IIB supports Slovak export for the first time (trade finance)

August 19, 2015

On August 19, 2015, **the International Investment Bank** closed its first trade finance deal with the Slovak Republic, having supported export from Slovakia to Belarus of high temperature power generators for spray dryers for Holding Mogilyov dairy company Babushkina Krynka by Slovak exporter **Vzduchotorg, spol. s r.o.**

The Bank issued an irrevocable reimbursement undertaking by the order of **JSC Development Bank of the Republic of Belarus** in favour of **Československá obchodná banka, a.s. (Bratislava)**. This way, the IIB continues to fulfil its extended mandate in the area of trade finance, contributing to the development of trade relations, especially through support of IIB members' export to non-member countries.

The IIB began to develop its trade finance operations benefitting its member states based on the internally adopted regulatory base, in line with the decisions taken during the 102nd IIB Council Meeting in November 2014 in Sofia, Bulgaria. This year the Bank has already issued several trade finance deals, having supported, in particular, export from the Czech Republic and Hungary.

Reference

International Investment Bank (IIB) — a multilateral development institution founded in 1970 based on the intergovernmental Agreement Establishing the International Investment Bank and its Charter. The current nine members of the Bank are Bulgaria, Cuba, Czech Republic, Hungary, Mongolia, Romania, Russia, Slovakia and Vietnam.
