International Investment Bank and VTB Group, which recently obtained an observer status in IIB, develop cooperation beyond the frames of business relationship. In Luzhniki a friendly game was held between VTB and IIB. In this game besides the employees of the two banks participated two famous sportsmen — Russian football player Dmitry Bylikin, which strengthened IIB's team and the legend of the Soviet football, player of the starry team of the Tbilisi «Dinamo» of the 80-s Vladimir Gychaev, who made a first symbolic hit. Despite the hour and the half of confrontation, the match ended in a draw — 4:4!
