# TIME PROVED PARTNERSHIP

The IIB is investing in its member states across three continents with the goal of promoting their socio-economic development, supporting prosperity of their population and fostering economic cooperation between them. Its aim is to provide effective and efficient tailor-made development assistance and solutions.

## PROFILE

The International Investment Bank (IIB) is a **multilateral development bank founded in 1970** carrying out its activities based on the intergovernmental Agreement Establishing the IIB. Its mission is to **support the economies of its member states** through direct project financing as well as through financial intermediaries, while collaborating with leading financial institutions.

The IIB's corporate governance structure consists of three tiers - the Board of Governors, the Board of Directors and the Management Board. The Board of Governors determines the Bank's development strategy, the Board of Directors exercises general management and oversight of the operations, the Management Board provides the management of the day-to-day affairs of the IIB.

The Bank as an international financial institution strives to improve the lives of people on its territory of operations of 19.6 million km<sup>2</sup> with a population of more than 300 million. There are currently **nine shareholders** of the IIB – **Bulgaria, Cuba, Czech Republic, Hungary, Mongolia, Romania, Russia, Slovakia and Vietnam.**

The Bank is **unique among its peers by its shareholder composition** – by itself a result of historical circumstances – as it does not have a regional or fully global character, but it is truly international. While it is proud of its history, over the past few years **the IIB has undergone a major modernisation, reinventing itself and transforming into a modern multilateral development bank** in order to respond to the current needs and challenges of its shareholders, at the same time following the highest standards in corporate governance and sustainable development.

The IIB is **open to new members** sharing its goals and vision. Its statutory documents allow to admit sovereign states and international organisations as IIB's shareholders.
